

Tony Rorke

Tony Rorke graduated with a degree in Mining Geology at Wits in the early 1970s and obtained his M.Sc in Geology thereafter. He spent a number of years in rock engineering research, focusing mainly on seismology and rock preconditioning. In the mid-1980s, he moved into the field Blasting Physics, working for a competitor for a few years before becoming an independent blasting consultant. Since 1995, Tony has worked with BME as their Drill and Blast Specialist and is now employed as their Director of Blasting Science.
