

AXXIS^{GII}™ DETONATOR

Product description

The AXXIS^{GII}™ detonator is a standard size detonator that will function in all standard sized boosters that are used in non electric blasting.

AXXIS^{GII}™ detonators use 2-core double insulated downline cables.

Higher resistance to electrostatic discharge and high induced ground currents make the GII™ detonator safer to use in all mining conditions.

Features

- **Firing time range:** 0 to 10 000 ms in 1 ms intervals
- **Accuracy:** < 1ms scatter
- **Operating temperature:** -20 to +60 C
- **Storage temperature:** -30 to + 50 C
- **Shelf life:** At recommended storage temperature – 36 months

Packaging

Standard lengths: 10m, 20m, 30m, 40m, 50m, 60m and 70m (other lengths available on request)
