### 4. First aid measures

<b>Inhalation</b>	: If inhaled, move to fresh air. If not breathing, give artificial respiration. Seek medical attention.
<b>Ingestion</b>	: Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention.
<b>Skin contact</b>	: In case of skin contact. Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Cover the irritated skin with an emollient. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes before reuse.
<b>Eye contact</b>	: Check for and remove any contact lenses. In case of contact immediately flush eyes with plenty of water for at least 20 minutes. Cold water may be used. Get medical attention.
<b>Note to physician</b>	: No specific treatment, treat symptomatically.
<b>Protection of first aiders</b>	: No additional remarks.

### 5. Fire-fighting measures

<b>Extinguishing media</b>	
<b>Suitable</b>	: Do not attempt to fight INNOVEX™ fire.
<b>Not suitable</b>	: No additional remarks.
<b>Unusual fire/explosion hazards</b>	: If a transport vehicle or surrounding combustible material burns, extinguish.
<b>Special firefighting procedures</b>	: IF FIRE IS OUT OF CONTROL or has spread to the INNOVEX™, this could result in detonation, DO NOT FIGHT FIRE. Withdraw from the fire and let it burn itself out. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. First move people out of line-of-sight of the scene and away from windows.
<b>Protection of fire fighters</b>	: Wear overalls, gloves, boots and eye protection as well as self-contained breathing apparatus.

### 6. Accidental release measures

<b>Personal precautions</b>	: Overalls buttoned to the neck and wrist. Rubber boots. Gloves. Eye protection.
<b>Environmental precautions</b>	: For small spills, make use of the oil spill kit to remove the spilled material. For large spills, block source of spill and contain spill. Prevent entry into sewers, basements or confined areas. Use soil only to dyke if needed to stop the product from flowing. <b>Do not use</b> soil or dry earth to cover the spill. Use saw dust or an absorbent as per regulation to absorb the spill. Use appropriate tools to collect into drums or suitable containers. Dispose waste using a professional registered waste disposal company.

**Note:** See section 8 for personal protective equipment and section 13 for waste disposal.
