

DOCUMENT NO: SDS.BME-6	ISSUED DATE: 12/08/2026	REVISE DATE: 12/08/2028	REVISION: 13	PAGE NO: 1 OF 4
-------------------------------	--------------------------------	--------------------------------	---------------------	------------------------

	Document Type:	Safety Data Sheet Conforms to ISO 11014:2009
	Title:	VIPERDET®

1. Identification of the product and Company Identification

Product Name	VIPERDET®	Manufactured/ supplied by
Shipping name	Detonator Assemblies, Non-electric, for blasting Detonators Non-Electric, for blasting	BME A division of Omnia Group (Pty) Ltd <i>Physical address</i> Omnia Holdings, Building H Monte Circle Business Park 178 Montecasino Boulevard Fourways Sandton, 2191
Synonyms	VIPERDET® MS; VIPERDET®SD; VIPERDET®LP; VIPERDET®Trunkline	<i>Postal address</i> P.O. Box 70040 Bryanston, 2021 Gauteng, South Africa
Chemical Formula	Not applicable	<i>Contact</i> Tel: +27 11 7098888 E-mail: info@bme.co.za
Emergency telephone number	(+27) 11 706 3398	
QR code		

2. Hazards identification

Based on available information, this material is not classified as hazardous according to health criteria of international authorities.

Classified as Dangerous Goods under the UN Code for the Transport of Explosives by Road and Rail.

Class: 1.1B Explosives
Poisons Schedule: None allocated

GHS Classification:

Expl. 1.1: H201 Explosive; mass explosion hazard

GHS precautionary Statements:

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Keep wetted.

Ground and bond container and receiving equipment.

Do not subject to grinding/shock/friction.

Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

Store in accordance with local/regional/national/international regulations.

Printed Date: Wednesday, 02 September 2026.

Copies of this document is allowed. The onus is on the user to ensure that the information contained in the document is valid for use and/or dissemination. Without the approved Red Document Control Stamp, this document shall be seen as an uncontrolled copy and shall not be updated.

DOCUMENT NO: SDS.BME-6	ISSUED DATE: 12/08/2026	REVISE DATE: 12/08/2028	REVISION: 13	PAGE NO: 2 OF 4
-------------------------------	--------------------------------	--------------------------------	---------------------	------------------------

3. Composition/information on ingredients

Recommended Use : Initiation System for explosives charges, particularly stope and development charges underground. Appearance : Aluminium shells closed at one end and connected to each other with a length of plastic tube. Shells could be enclosed in a plastic connecting piece. The tubing is coiled tied with an easy breakable paper tape. Odourless. The non-electric detonator assemblies consist of a signal tube with a detonator at each end. The signal tube has a dusting of RDX and Aluminium adhering to the internal surface. The detonator has a base charge of RDX and/or PETN. Depending on product type one or more detonators could be enclosed in a plastic connector clip. Both detonators contain a pyrotechnic delay charge. Refer to product data information for specific configuration.				
Chemical Name	CAS No	% (Weight per weight)	EC Number	GHS Classification
Metal and plastic composition articles		>60		
Aluminium Powder	7429-90-5	<1	231-072-3	 Pyr. Sol. 1, H250 Water-react. 2, H261
Cyclo-trimethylene trinitramine (RDX)	121-82-4	<1	204-500-1	 Acute Tox. 2, H300 Acute Tox. 3, H311 Acute Tox. 3, H331

4. First aid measures

The construction of the items prevents any chemical contamination.

Swallowed:	Not applicable.
Eye contact:	In cases of eye injury or contamination, it is a sensible precaution to seek medical advice.
Skin:	Not applicable.
Inhalation	If exposed to fumes from detonation, in a poorly ventilated area, remove victim from exposure and loosen clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist.
Notes to physician:	Treat symptomatically. Detonator assemblies are explosive – handle with care.

5. Fire-fighting measures

Specific hazards	: Explosives material. Avoid all ignition sources
Fire fighting	: Explosive - Severe detonation hazard when exposed to heat. In case of fire where the actual product is not involved, carefully remove the product to a safe distance, otherwise evacuate area immediately and allow to burn. On burning may emit toxic fumes. Fire fighters should wear self-contained breathing apparatus if risk of exposure to vapour or products of detonation.

6. Accidental release measures

Shut off all ignition sources. Collect and seal in properly labelled containers for collection. In the case of a transport accidents notify the Police, Explosives Inspectors and BME (Tel nr. - 27 11 709 8777). Explosives should not be abandoned at any location for any reason.

7. Handling and storage

Storage	: Store in clean, dry magazine suitably licensed for Class 1.1 explosives. Handle with care. Do not subject materials to impact sparking or any type of heat.
----------------	---

8. Exposure controls/personal protection

National occupational exposure limits	: No value assigned for this specific material.
Engineering Measures	: When test firing, ensure adequate ventilation to maintain air concentration below Exposure Standard. Natural ventilation should be adequate under normal use conditions.
Personal protective equipment	: Not in use. Always wash hands before smoking, eating, drinking or using the toilet.

Printed Date: Wednesday, 02 September 2026.

Copies of this document is allowed. The onus is on the user to ensure that the information contained in the document is valid for use and/or dissemination. Without the approved Red Document Control Stamp, this document shall be seen as an uncontrolled copy and shall not be updated.

DOCUMENT NO: SDS.BME-6	ISSUED DATE: 12/08/2026	REVISE DATE: 12/08/2028	REVISION: 13	PAGE NO: 3 OF 4
-------------------------------	--------------------------------	--------------------------------	---------------------	------------------------

9. Physical and chemical properties

Form/Colour/Odour	: Aluminium shells closed at one end and connected to each other by a length of plastic tubing. One or more aluminium shells could be enclosed in a plastic connecting piece. Enclosed in sealed packs in carton. Odourless.
Solubility	: Insoluble in water.

10. Stability and reactivity

Stability	: Detonation can occur from impact, friction and excessive heating
------------------	--

11. Toxicological information

No adverse health effects if the product is handled in accordance with the Safety Data Sheet and the product label

Ingestion	: N/A
Eye contact	: May result in physical injury
Skin contact	: N/A
Inhalation	: N/A

12. Ecological information

Avoid contaminating waterways

13. Disposal considerations

For small quantities	: Follow destruction methods duly authorised by relevant authorities and internal management procedures.
Large quantities	: Should be returned to BME or be disposed of in conjunction with relevant authorities.

14. Transport information

Road/Rail transport:

Classified as Dangerous Goods under the criteria of Australian Code for the Transport of Explosives by Road and Rail.

UN No: 0360
Class: 1.1B
HazChem Code: E
Proper Shipping Name: Detonator Assemblies, Non-electric

UN No: 0029
Class: 1.1B
HazChem Code: E
Proper Shipping Name: Detonators, Non-Electric

Marine Transport:

Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

UN No: 0360
Class: 1.1B
Proper Shipping Name: Detonator Assemblies, Non-electric

UN No: 0029
Class: 1.1B
Proper Shipping Name: Detonators, Non-Electric

Air Transport:

TRANSPORT PROHIBITED under the Air Transport Association (IATA) Dangerous Goods Regulations for transport by air in passenger and cargo aircraft.

Printed Date: Wednesday, 02 September 2026.

Copies of this document is allowed. The onus is on the user to ensure that the information contained in the document is valid for use and/or dissemination. Without the approved Red Document Control Stamp, this document shall be seen as an uncontrolled copy and shall not be updated.

-------------------------------	--------------------------------	--------------------------------	---------------------	------------------------

15. Regulatory Information

Based on information available, this material is not hazardous, based on adherence to safe working procedures

16. Other information

None

History

Date of printing	:	12-08-2026
Date of issue	:	12-08-2026
Date of previous issue	:	12-08-2024
Recommended by	:	Kady Govender: R&D Laboratory Supervisor
Authorised by	:	Myra Coetzer: Acting R&D Laboratory Manager

Remarks:

This SDS summarizes, at the date of issue, our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle the product in the workplace. As **BME** cannot control the use and handling of the product each user must review the SDS in the context of how the user intends to handle and use the product in the workplace.
